

# DIY Mini Road Signs

Make your very own road signs in just four easy steps.  
Download and print this page, add some toy cars, and play all day!

## What you'll need:

- A4 paper
- A printer
- Scissors
- Toothpicks
- Adhesive gum
- Small coins

### Step 1:

Print this page and cut out each of the road signs.

### Step 2:

Add adhesive gum to the back of the road sign, and the top of the toothpick. Press these together.

### Step 3:

Stick the other toothpick end to the top of the coin with adhesive gum. Press these together.

### Step 4:

Nice work. You've just made a road sign! Repeat for the others, then get playing.
